

# Indian Incentive Program

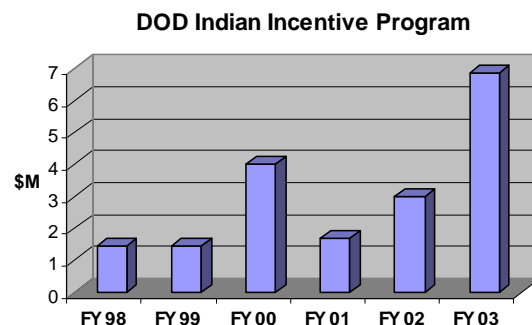

The Office of the Secretary of Defense (OSD) Small and Disadvantaged Business Utilization (SABDU) Office administers the Indian Incentive Program (IIP). Specifically, DoD contracts that contain the FAR clause 52.226-1, Utilization of Indian Organizations and Indian-Owned Economic Enterprises, provide eligibility for the prime contractor to receive the 5 percent incentive payments under the FY 2004 program.

For actions after September 13, 2001, sub-tier contractors who subcontract to an Indian-owned firm are eligible for the incentive payments if the Prime Contractor and government insert the DFARS Clause 252.226-7001 into the contract. These clauses may be added at any time during the performance of the contract.

- Funds for this program are established by Congress.
- Funding for any OSD program or the funds of the contracting organization are not impacted.
- IIP provides for the payment of 5 % of the dollar amount subcontracted to Indian Organizations or Indian-Owned Economic Enterprises at any sub-tier.
- FY 2004 Appropriations Act makes \$8 Million available for incentive payments to prime contractors and to small businesses that use Indian-owned businesses or enterprises at any tier.
